

Power SMD LED CLCC-6

20623

DESCRIPTION

The VLMW61.. is one of the most robust and light efficient LEDs in the market. Its ceramic package makes it the ideal light source in applications of high thermal considerations allowing the additional current drive for a maximum light output while maintaining a high service life of up to 50K hours. The reflector inside this package is filled with a mixture of epoxy and TAG phosphor. The TAG phosphor converts the blue emission partially to yellow, which mixes the remaining blue to white.

PRODUCT GROUP AND PACKAGE DATA

- Product group: LED
- Product series: SMD Power
- Package: CLCC-6
- Angle of half intensity: $\pm 60^\circ$

FEATURES

- Utilizing InGaN technology
- Angle of half intensity $\varphi = \pm 60^\circ$
- Very low thermal resistance
- Optical efficiency 40 lm/W
- Luminous intensity and color grouping
- Luminous intensity ratio per package
- ESD-withstand voltage:
up to 1 kV according to JESD22-A114-B
- Compatible with IR-Reflow solder processes according to CECC 00802 and J-STD-020C
- Lead (Pb)-free device
- Component in accordance to RoHS 2002/95/EC and WEEE 2002/96/EC
- Preconditioning: acc. to JEDEC Level 4
- Automotive qualified AEC-Q101

APPLICATIONS

- Camera flash light
- Interior and exterior automotive lighting:
(brake lights, turn lights, backlighting, side markers)
- Indicator lighting
- Signal and symbol luminaire
- Marker lights

PARTS TABLE

PART	COLOR, LUMINOUS INTENSITY (at $I_F = 140 \text{ mA}$)	LUMINOUS FLUX (TYP)	TECHNOLOGY
VLMW61CADA-3K8L-08	White, $I_V = (2800 \text{ to } 5600) \text{ mcd}$	13200 mlm	InGaN
VLMW61DAEA-3K8L-08	White, $I_V = (4500 \text{ to } 9000) \text{ mcd}$	23000 mlm	InGaN

ABSOLUTE MAXIMUM RATINGS ¹⁾ VLMW61..				
PARAMETER	TEST CONDITION	SYMBOL	VALUE	UNIT
Forward current		I_F	150	mA
Power dissipation		P_{tot}	650	mW
Junction temperature		T_j	+ 125	°C
Surge current $t < 10 \mu s, d = 0.1$		I_{FM}	1000	mA
Operating temperature range		T_{amb}	- 40 to + 100	°C
Storage temperature range		T_{stg}	- 40 to + 100	°C
Thermal resistance junction/pin	Metal core pcb 960 mm ² per LED	R_{thJP}	40	K/W
Thermal resistance junction/ambient		R_{thJA}	80	K/W

Note:

Not designed for reverse operation

¹⁾ $T_{amb} = 25 \text{ °C}$, unless otherwise specified

OPTICAL AND ELECTRICAL CHARACTERISTICS ¹⁾ VLMW61.., WHITE							
PARAMETER	TEST CONDITION	PART	SYMBOL	MIN	TYP.	MAX	UNIT
Luminous intensity	$I_F = 140 \text{ mA}$	VLMW61CADA	I_V	2800		5600	mcd
		VLMW61DAEA	I_V	4500		9000	mcd
Luminous flux	$I_F = 140 \text{ mA}$	VLMW61CADA	ϕ_V	8800	13200	17600	mlm
		VLMW61DAEA	ϕ_V	14100	23000	28300	mlm
Chromaticity coordinate x acc. to CIE 1931	$I_F = 140 \text{ mA}$		x		0.33		
Chromaticity coordinate y acc. to CIE 1931	$I_F = 140 \text{ mA}$		y		0.33		
Angle of half intensity	$I_F = 140 \text{ mA}$		ϕ		± 60		deg

LUMINOUS INTENSITY/FLUX CLASSIFICATION WHITE		
GROUP	LUMINOUS INTENSITY IV (MCD)	
	MIN	MAX
STANDARD		
BB	2240	2800
CA	2800	3550
CB	3550	4500
DA	4500	5600
DB	5600	7100
EA	7100	9000
EB	9000	11200

Note:

Luminous intensity is tested at a current pulse duration of 25 ms and an accuracy of $\pm 11 \%$.

The above type Numbers represent the order groups which include only a few brightness groups. Only one group will be shipped on each reel (there will be no mixing of two groups on each reel).

In order to ensure availability, single brightness groups will not be orderable.

In a similar manner for colors where wavelength groups are measured and binned, each single wavelength group is packed in a single reel.

In order to ensure availability, single wavelength groups can not be ordered.

FORWARD VOLTAGE CLASSIFICATION		
GROUP	FORWARD VOLTAGE (V)	
	MIN.	MAX.
3	2.9	3.5
4	3.5	4.3

Note:

Forward voltages are tested at a current pulse duration of 25 ms and a tolerance of ± 0.05 V.
In order to ensure availability, a single forward voltage group can not be ordered.

BARCODE-PRODUCT-LABEL EXAMPLE:

- A) Type of component
- B) Manufacturing Plant
- C) SEL - Selection Code (Bin):
 e.g.: DA = Code for Luminous Intensity Group
 5 = Code for Color Group
 4 = Code for Forward Voltage
- D) Batch:
 200707 = year 2007, week 07
 PH19 = plant code
- E) Total quantity

DRY PACKING

The reel is packed in an anti-humidity bag to protect the devices from absorbing moisture during transportation and storage.

FINAL PACKING

The sealed reel is packed into a cardboard box. A secondary cardboard box is used for shipping purposes.

RECOMMENDED METHOD OF STORAGE

Dry box storage is recommended as soon as the aluminum bag has been opened to prevent moisture absorption. The following conditions should be observed, if dry boxes are not available:

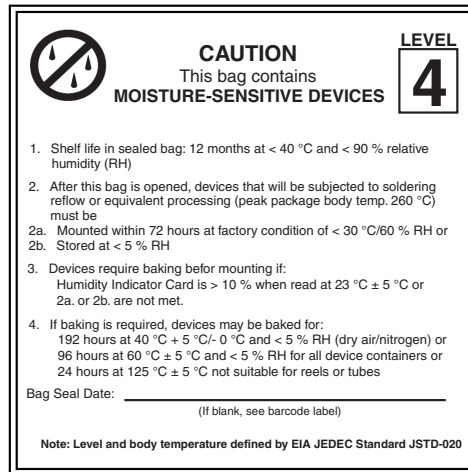

- Storage temperature 10 °C to 30 °C
- Storage humidity ≤ 60 % RH max.

After more than 72 hours under these conditions moisture content will be too high for reflow soldering.

In case of moisture absorption, the devices will recover to the former condition by drying under the following condition:

- 192 hours at 40 °C + 5 °C/- 0 °C and < 5 % RH (dry air/nitrogen) or
- 96 hours at 60 °C + 5 °C and < 5 % RH for all device containers or
- 24 hours at 100 °C + 5 °C not suitable for reel or tubes.

An EIA JEDEC Standard JESD22-A112 Level 4 label is included on all aluminium dry bags.

Example of JESD22-A112 Level 4 label

ESD PRECAUTION

Proper storage and handling procedures should be followed to prevent ESD damage to the devices especially when they are removed from the Antistatic Shielding Bag. Electro-Static Sensitive Devices warning labels are on the packaging.

VISHAY SEMICONDUCTORS STANDARD BAR-CODE LABELS

The Vishay Semiconductors standard bar-code labels are printed at final packing areas. The labels are on each packing unit and contain Vishay Semiconductors specific data.

**OZONE DEPLETING SUBSTANCES POLICY STATEMENT**

It is the policy of Vishay Semiconductor GmbH to

1. Meet all present and future national and international statutory requirements.
2. Regularly and continuously improve the performance of our products, processes, distribution and operating systems with respect to their impact on the health and safety of our employees and the public, as well as their impact on the environment.

It is particular concern to control or eliminate releases of those substances into the atmosphere which are known as ozone depleting substances (ODSs).

The Montreal Protocol (1987) and its London Amendments (1990) intend to severely restrict the use of ODSs and forbid their use within the next ten years. Various national and international initiatives are pressing for an earlier ban on these substances.

Vishay Semiconductor GmbH has been able to use its policy of continuous improvements to eliminate the use of ODSs listed in the following documents.

1. Annex A, B and list of transitional substances of the Montreal Protocol and the London Amendments respectively
2. Class I and II ozone depleting substances in the Clean Air Act Amendments of 1990 by the Environmental Protection Agency (EPA) in the USA
3. Council Decision 88/540/EEC and 91/690/EEC Annex A, B and C (transitional substances) respectively.

Vishay Semiconductor GmbH can certify that our semiconductors are not manufactured with ozone depleting substances and do not contain such substances.

The IEC/EN standards require that the desired classification Accessible Emission Limit shall not be exceeded in "Normal" and "Single Fault Conditions". This product is in Compliance with the requirement in CEN/IEC/EN60825-1 to ensure that required classifications are not exceeded in single fault conditions.

We reserve the right to make changes to improve technical design
and may do so without further notice.

Parameters can vary in different applications. All operating parameters must be validated for each customer application by the customer. Should the buyer use Vishay Semiconductors products for any unintended or unauthorized application, the buyer shall indemnify Vishay Semiconductors against all claims, costs, damages, and expenses, arising out of, directly or indirectly, any claim of personal damage, injury or death associated with such unintended or unauthorized use.

Vishay Semiconductor GmbH, P.O.B. 3535, D-74025 Heilbronn, Germany
